

# Make a Personalised Gift for the Golfer in Your Life (using just a photograph and computer) (Make a Personalised Gift for... Book 1)

We all enjoy giving and receiving gifts, don't we? A lot of people can be pretty tough to buy for, though :- (It's not their fault - they probably don't know what they want themselves. So how can they be expected to let YOU know? Over 15 years of running [CartoonPortraits.co.uk](http://CartoonPortraits.co.uk) I've helped hundreds of people solve the problem of not knowing what to give their golfer friends. Actual golfing equipment is pretty expensive and gets predictable :- ) Obviously having a cartoon portrait specially created for you costs more than many people can afford. So I decided to write this book explaining how YOU can quickly and easily create your own cartoon portrait using only free software on your computer and a few files I'm giving you along with this book. You'll receive a golfing cartoon template file which has male and female bodies already in it, a choice of hands holding different objects you can add to your picture, extra books and boxes in case you want to add more interests as well as a couple of shading patterns we were going to use to create cross-hatching effects. So you can follow the tutorial more easily I'm giving you the exact photograph I'm using - so you can replicate what I've done step by step. There's even a video for you to watch! The great thing about a cartoon portrait is that it can be tailored to absolutely anybody. I've drawn lots of very similar cartoon portraits - they all follow the same general principles - but they're all totally personalized to their recipient. Your golfer friend's cartoon will work just the same... Make a list of everything you can think of about your friend. We know they play golf but what else? What do they do for a living? What other hobbies have they got? Any pets? Do they play a musical instrument? You know the sort of things that make a life... What we're going to do is find a way to include references to all those things in their cartoon. People often say

about gifts Its the thought that counts.Which gift shows more thought - monogrammed golf balls or a fully personalized cartoon portrait you drew yourself?And its not only the gifts recipient wholl be impressed.Everyone who sees your picture will be amazed...(a) that you thought of it and(b) that you were able to create itNot that creating your cartoon portrait will be particularly difficult - it wont.But why let them know that?Click the Buy Now button to start amazing your friends with touching personal gifts youve made specially for them.
