

A Young Peoples History of the United States: Class Struggle to the War On Terror (Volume 2)

A Young Peoples History of the United States brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. A Young Peoples History of the United States is also a companion volume to The People Speak, the film adapted from A Peoples History of the United States and Voices of a Peoples History of the United States. Beginning with a look at Christopher Columbus arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers rights, womens rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of A Young Peoples History of the United States presents a radical new way of understanding Americas history. In so doing, he reminds readers that Americas true greatness is shaped by our dissident voices, not our military generals.
