

This is the sequel to the 2007 Artech House title, Statistical Multisource-Multitarget Information Fusion. This book addresses the large number of significant advances that have appeared since the publication of the first book, both practical and theoretical. The book presents systematic integral and differential calculus for multisource-multitarget problems, providing a methodology for devising rigorous new techniques. It provides engineers and students with a comprehensive approach to multisensory-multitarget sensor management and resource management - Level 4 data fusion.

Unheard Voices: An Anthology of Stories and Poems to Commemorate the Bicentenary Anniversary of the Abolition of the Slave Trade, Napoleon: A Life, Kill Them with Honey (Queen B Superheroine, No. 3), The Perfume Lover: A Personal Story of Scent, Road-Building Materials in Texas: -1918, The Baffled Parents Guide to Great Baseball Drills (Baffled Parents Guides), The New York Yankees: One Hundred Years- The Official Retrospective, What Then Must We Do?: Straight Talk about the Next American Revolution, Beccas Fertile First Time: A Bareback M/F/M, Great Authors of Science Fiction & Fantasy (Essential Authors for Children & Teens),

This is the sequel to the 2007 Artech House bestselling title, Statistical Multisource-Multitarget Information Fusion.
