

The doctrine of earthquakes. Two sermons preached at a particular fast in Weymouth, Nov. 3. 1727. The Friday after the earthquake. Wherein this ... not to proceed from natural second causes

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century.++++The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification:++++Library of Congress W038201 Half-title: Mr. Paines sermons on the earthquakes. Errata note on verso of title page. Boston : Printed for D. Henchman, over-against the Brick Meeting-House in Cornhill, MDCCXXVIII. [1728]. 87,[1]p. ; 8

But there are secondary causes in human minds and in nature and evils come to us but that the works of God should be made manifest in him (John 9:3). .. is not supposed to understand such things as the nature of his life after death.
