

Coaching is a powerful tool that many organizations are using to boost both individual and company-wide performance. Coaching Basics is designed as a baseline guide to help you develop these essential business skills. As noted by the author, coaching is a powerful tool that can move mountains of self-imposed resistance that get in the way of action and [business] results. In addition to building solid coaching skills, you will find essential tips on ensuring a coaching conversation is focused on your clients goals. Get guidance on how to avoid confusing coaching with advice, preaching, and counseling and the importance of keeping your eye on business and performance results.
