

Why Golf? The Mystery of the Game Revisited

In the grand tradition of such classics as *Golf in the Kingdom* and *Final Rounds* comes a brilliant consideration of golf's inimitable and ever-growing popularity. In 1908, Arnold Haultain wrote a delightful book with a deceptively simple title: *The Mystery of Golf*. It explores the love affair golfers have with their sport and has been a favorite ever since among connoisseurs and students of the game. Now, more than ninety years later, in a thematic continuation of Haultain's enduring treatise, Bob Cullen has crafted a literate and thoughtful book that chronicles his own quest to uncover the secrets to the spell that golf has cast on millions. Why golf? Beginning with that essential question, Cullen's fascinating explorations lead readers to a range of exotic and unexpected places of mind, spirit, and geography. Cleverly establishing entirely credible links between seemingly unrelated items -- from the breathtaking prowess of Tiger Woods to the Iranian governments near banning of golf to how a baby's smile is related to our love of golf -- Cullen weaves a rich and amusing tapestry, discussing such unexpected subjects as Platonic philosophy and the nature of faith. As whimsical and picaresque as it is earnest and intensely personal, *Why Golf?* does for America's favorite weekend pastime what Peter Mayle did for the south of France and what George Will did for baseball.

The *Mystery of the Game Revisited* In the grand tradition of such classics as *golf* Beginning with that essential question, Cullen's fascinating *The Mystery of the Game Revisited* Bob Cullen.
