

Fatigue Behavior of Titanium Alloys: Proceedings of an International Symposium Sponsored by the Tms Titanium Committee and Held at the Tms Fall Meeting 98 in Chicago, Il at the OHare hi

This book represents the proceedings of an international symposium held at the 1998 TMS Fall Meeting and is divided into four sections: mechanisms of fatigue crack initiation and propagation of conventional alloys; fatigue in intermetallics; environmental and surface aspects of fatigue; and application, life prediction, and design.
