

The Beating-Down of the American Soul: a Gen-Y Manifesto

Millenials? Generation Y? iGeneration? Lost Generation? Who are these kids, and why are they so damned lazy? Well, as a matter of fact, they're not. Not entirely, at least. Eli Gottlieb, writing as a member of Generation Y himself, walks readers through how the Millennial generation have been shaped by the past 10 years of economic storm and strife walking all over their youth, and how many of the apparent clashes of values between students and new workers and full-fledged adults arise chiefly from the way Millennials have changed their values to correspond to the reality in which they grew up. Along the way, he touches on issues such as moving out of the parents house, youth unemployment, fulfillment in the workplace, work-life balance, and Occupy Wall Street.
