

IEC 60364-7-704 Ed. 2.0 b:2005, Low-voltage electrical installations - Part 7-704: Requirements for special installations or locations - Construction and demolition site installations

The special requirements of this part apply to temporary installations for construction and demolition sites during the period of the construction or demolition work, including for example the following: - construction work of new buildings; - repair, alteration, extension, demolition of existing buildings or parts of existing buildings; - engineering works; - earthworks; - work of similar nature. The requirements apply to fixed or moveable installations.

The design and installations of low voltage DC power grid systems shall IEC 60364-1 defines in chapter 312 conductor arrangements and . installations Part 7-704: Requirements for special installations or locations Construction and demolition site installations, IEC 704, 2nd Edition, October 2005. Part 7-706: Requirements for special installations or locations - Conducting 0 b: 2005 - techstreet - IEC 60364-7-704 Ed. 2.0 b:2005 Low-voltage electrical.
