

Microeconomics (The Pearson Series in Economics)

Is Facebook free? Is college worth it? How does location affect the rental cost of housing? How much more gasoline would people buy if its price were lower? Would a smoker quit the habit for \$100 a month? Can markets composed of only self-interested people maximize the overall well-being of society? **Microeconomics** Will free trade cause you to lose your job? How can the Queen of England lower her commute time to Wembley Stadium? What is the optimal size of government? Is there discrimination in the labor market? Can a monopoly ever be good for society? Is there value in putting yourself into someone else's shoes? How many firms are necessary to make a market competitive? Do people exhibit a preference for immediate gratification? How should you bid in an eBay auction? Why do new cars lose considerable value the minute they are driven off the lot? Do people care about fairness?

MyEconLab should only be purchased when required by an instructor.-- For courses in Principles of Microeconomics Acemoglu, Laibson, List: An evidence-based approach to economics Throughout Microeconomics, authors Daron Acemoglu, David Laibson, and John List use real economic questions and data to help students learn about the world around them. Taking a fresh approach, the authors use the themes of optimization, equilibrium and empiricism to illustrate the power of simple economic ideas, and their ability to explain, predict, and improve what happens in the world. Each chapter begins with an empirical question that is later answered using data in the Evidence-Based Economics feature. As a result of the texts practical emphasis, students will learn to apply economic principles to guide the decisions they make in their own lives. Also available with MyEconLab This title is also available with MyEconLab an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results.
