

Roadway Design With InRoads (with Student CD-ROM)

Based on a real world roadway design project, ROADWAY DESIGN WITH INROADS V8I provides information on not only the use of InRoads, but also AASHTO and State roadway design guidelines. Readers are able to take a design from inception to design modification, and to the development of a contract plan set. This comprehensive text provides information, references, guidelines, step-by-step instructions, and exercises for individuals of varying skill levels, and is designed for individual study, for the university environment including the senior transportation capstone course, and for in-house training for roadway and design agencies.
