

IEC 60335-2-42 Ed. 5.0 b:2005, Household and similar electrical appliances - Safety - Part 2-42: Particular requirements for commercial electric ... steam cookers and steam-convection ovens

Deals with the safety of electrically operated commercial forced convection ovens, steam cookers, steam-convection ovens and, exclusive of any other use, steam generators, not intended for household use. The rated voltage being not more than 250 V for single-phase appliances connected between one phase and neutral and 480 V for other appliances. Appliances within the scope of this standard are typically used in restaurants, canteens, hospitals and commercial enterprises such as bakeries, butcheries, etc. The electrical part of appliances making use of other forms of energy is also within the scope of this standard.

IEC 60335-2-42:2002/AMD2:2017 Standard Amendment 2 - Household and similar electrical appliances - Safety - Part 2-42: Particular requirements for commercial electric forced convection ovens, steam cookers and steam-convection ovens.
