

What happens when everything around you seems perfect - your family, your health, your social status, your overall life - but all of a sudden something threatens to tear it all apart and rob you of what you've always known? This type of thing happens to many people, every day, from all walks of life. Some are able to get over it and go on with their lives. But others are not so fortunate. They find themselves stuck in their own meltdown of loss, hurt, and pain. Such is the situation in Marita L. Kinney's latest novel.
